duraguardinc.com

DuraGuard was founded in 1997 in Newport, TN which is nestled in the Great Smoky Mountains of East Tennessee. DuraGuard has always been a small family owned business. DuraGuard began operations by hot stamping thermoplastic rubber and polyethylene mud flaps for the heavy duty truck market. The largest product that DuraGuard offers is the Extruded Thermoplastic Rubber which is produced from around 70% recycled tires and once the sheet is extruded it is 100% recyclable. The process of stamping snow deflectors and die cutting soon followed with the move to our current facility in 2002. We at DuraGuard like to say we are a custom job shop for rubber and plastic sheeting.

Here at DuraGuard the employees strive to keep a friendly atmosphere and we believe that is what has kept us growing throughout the years. We offer friendly service at a competitive price, and we strive to offer the fastest service in the industry. The addition of new customers and applications to our product line keeps us moving towards the future.

Mudflap Patterns

This is the matte side of the material that we offer. It is the side that will contain the imprint.

This pattern is the GRS pattern, which is on the back side of the flap, for anti spray purposes, to channel the water back to the road surface. It is available in the 1/4" DuraRubb and DuraPoly.

This is our smooth pattern for the back side of 3/16" DuraPoly. It is also available on some of the heavy duty DuraRubb flaps.

The SB pattern is a anti spray pattern with a one inch anti sail, stabilizing bar running the entire length on each side of the flap. This pattern is available in 5/16" and 1/2" DuraRubb and 5/16" DuraPoly.

Upfitter Flaps

The flap is a universal 12" wide by 20" long flap. The flap is designed to be mounted on the inside of the fender of a vehicle. It can be mounted on the front or rear fenders. The flaps can be customized with custom printing. It comes standard as a 3/16" black poly flap, with a matte finish on the front and back. Other materials, thicknesses, and patterns are available.

PN-1651220BMD

Custom Color Flaps:

We stock yellow, blue, and red poly mudflaps other colors are available through special order. They are offered in all three styles, as the regular DuraPoly.

Quarter Fender Flaps:

Fender flaps are available in 1/4" and 5/16" DuraRubb, and a special thickness of .120" DuraPoly available in white or black. The DuraRubb fender flaps do contain the anti-spray grooves, while the DuraPoly has a matte smooth pattern. Either material can be imprinted. DuraGuard offers a universal hole pattern in their top to fit most fenders. Specific hole patterns are available upon request.
